## BLAIRMORE SCHOOL CHOIR PRESENT FINE PROGRAM

The Blairmore school choir presented a broadcast over CFCN on Wednesday evening. The reception throughout the town was excellent. Mr. Moffat, who is responsible for training these pupils, such a high degree of excellence, played the accompaniments while Mrs. Fleming ably wielded the conductor's baton.

The school is grateful to all those who co-operated to prevent outside noise from interfering with the broadcast.

The program, well chosen and artfully arranged was as follows:

Morning Hymn, from an old Georgian melody as arranged by the conductor, Mr. Moffat.

Market Chorus, from the French Light Opera, "Chimes of Normandy."

Two numbers—(a) Au Clair de la Lune (b) La Dose Pendre from "The Magic Flute"—Mozart.

Four part Russian song, "Minka," Ave Verum—Mozart.

Two-two part songs—(a) Trot Here, Trot There, from the opera Veronique, (b) I Waite for The Lord—Mendelssohn.

Tyrolienne, from the opera William Tell—Rossini.

(a) Hymn—St. Cecilia; (b) Hymn O Quanta Qualia—in Latin. (c) Morning Hymn.

The parents of these young musicians may well be proud of them and Mr. Moffat for his fine training.

The timing of the program which presents great hazards to amateurs on their initial broadcast left nothing to be desired.

The work of the announcer and engineer from CFCN did much to add to the enjoyment of the event. The choir sang in the Oliva hall and the program was carried over the Alberta Government Telephones direct to the station in Calgary.

ALDERMAN S. FOWLER  
DIES FROM INJURIES

Six days after he had met with a serious accident in the mine, Alderman Sam Fowler passed away in the Fernie hospital Tuesday night. He was a highly respected citizen and well liked by all.

He was born at Lochgelly, Scotland, in July of 1906, and was in his 41st year. Coming to Canada with his parents in 1911 he first lived at Hazelton and two years later moved to Coal Creek. In 1927 he was married to Miss Ruth Martin at Coal Creek, and a few years later they took up residence in Fernie.

Besides his wife, Mr. Fowler is survived by two daughters, Roberta and Audrey, at home; his parents, Mr. and Mrs. Robert Fowler, Coal Creek; two sisters, Mrs. V. Neuman, Harrison Lake, BC, and Mrs. William Evans, Blairmore.

Mr. Fowler was elected Alderman of the City Council and took office last July; he was also president of the local branch Firefighters' Association; secretary of Fernie Centre, East Kootenay Mine Safety Association; vice-captain, Fernie Mine Rescue team, and was employed as foreman at Elk River Collieries.

The funeral will be held Saturday, May 17, at 1:30 p.m., from Rewers Funeral Parlours to the United church—Fernie Free Press.

VISITOR FROM ERIE

Mr. John Murphy arrived in Blairmore to spend a few days of his indefinite stay in Canada, and is visiting his cousin, Emmett Murphy of the local Royal Bank staff.

John has just arrived from New York on March 1 on the "John Ericsson." He is a writer under the pseudonym of Mr. Christopher McMurro. He plans to go to Vancouver to visit with an uncle and aunt.

## THE SALES TAX MUST BE ABOLISHED

Taxes may be levied so as to encourage industry, increase production and lower the cost of living.

All taxes on production do the opposite. They increase the cost of living, lower the demand for the things produced and create unemployment. If the possession of land was taxed and not the use it was put to, no one would keep land idle and there would be no scarcity of buildings. Houses would be kept in repair and there would be no slums.

But the majority of taxes have the contrary effect. They penalize industry, increase the cost of making and exchanging things and the multiplicity of such taxes can destroy civilization.

The worst of all possible taxes is the Sales Tax, for it is a penalty on exchange, the very basis of our civilization. It is a fine on what is a moral duty, the duty of helping one another by exchanging services and goods. Wherever the tax has been applied, it has resulted in inflation, bad times, and unemployment, increasing poverty, crime and disease.

In the middle ages Spain levied a sales tax. Then she was the most important trader in the world. Her ships were in every port and she was a great naval power. Her nobles and lords brought the sales tax in force in order to escape the feudal responsibility of supporting the church, the state and the poor, which was the feudal system. Inside of 50 years she lost her trade and sank to the level of a fifth rate power. The nobles came to poverty and the saying "as poor as a Spanish Grandee" became a proverb.

The Sales Tax increases the cost to the consumer when it is levied on the last purchaser, but when it is levied on a product used in the making or exchanging of any thing it is pyramidized. In some cases for every dollar the Government gets the consumer may pay two, three or even five dollars.

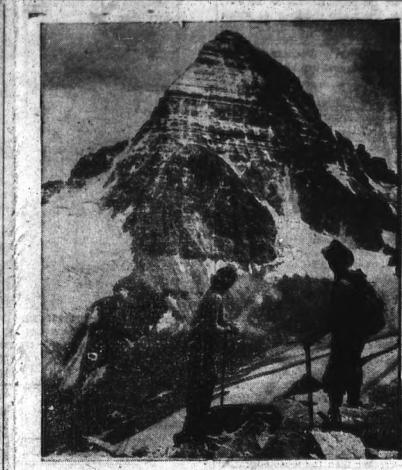

The two great railway systems are demanding an increase of 30% in freight rates, an increase which if granted, will, of necessity, raise prices and invite similar demands by every group of workers and producers in Canada.

If instead, the Sales Tax is repealed, it will lower prices, increase buying power and the volume of goods produced, sold and transported, reduce cost, while increasing the volume of railway business. It will give a greater boost to Canadian industry than the same amount offered in bonuses.

The cost of the "Sales Tax" to the Government is not limited to the actual expense of the "Sales Tax" department. It seriously reduces the profits from all business so that the Government's returns from the income tax and excess profits tax in many cases is nil and the total is much reduced.

Notwithstanding all the efforts to simplify collection of the sales tax and avoid duplication, it does pyramid. Advertising is an essential part of the cost of goods sold and the sales tax on advertising adds to the cost of delivering goods to the consumer just as surely as does the sales tax on the finished product. The sales tax on things in common use reduces the purchasing power of the dollar and results inevitably in demands for higher wages.

It is obvious that the immediate repeal of the sales tax will reduce railway costs and increase freight volume as to make increased freight rates less necessary. It will reduce the cost of living and increase the demand for labor. The loss from strikes will be greatly reduced and other revenues of the government will so increase as to more than offset the loss of the sales tax.

—Photo—Oliver, Calgary.

## MT. ASSINABOINE AND CLIMBERS

Climbing and hiking place highly factor in the economy of the province through the co-operation of all who stimulate and health-giving activities amid startling scenic beauties at the service of the tourist who recipe cooking contest being conducted by the Alberta Government Travel Bureau is designed to develop a typical Alberta Dish that will appeal to tourist industry can become a major factor in this province.

## NATIONAL EMPLOYMENT SERVICE MAKES APPEAL

The following has been issued by the local office of National Employment Service:

High school students' summer vacation period will soon be here and many students will be seeking employment for this period. All residents of the Crows Nest Pass will be registered at the schools by travelling staff of the Blairmore Employment Service office.

La, year almost 200 students were placed in employment in the various industries of the Crows Nest Pass and many of these students are now in steady employment with employers who engaged them during the previous summer vacation period. May we again ask your co-operation in placing these students and for those who are leaving school permanently at this time.

An early reply would be appreciated as considerable planning and selection is required to give you the best type of student in the required position.

The sales tax is an attack on civilization at its source. The larger the revenue the government gets, the worse is its effect on general business and on all other source of revenue of the government.

The sales tax is immoral. It is a straight violation of the laws of God, it is robbery by force and gives no equivalent. It is a violation of the command "Love your neighbor" and "As you would that men should do to you do so to them."

To summarize:

It is unjust.  
It is an attack on civilization.  
It produces no revenue to the government.

It violates the fundamental laws of sound economics.

It produces inflation.

It reduces production.

To keep track of the tax and make the necessary government returns necessitates an increase in productive labor, costly to industry.

It has driven many small businesses into bankruptcy.

It has nothing to recommend it. It must be abolished.

## COWLEY HAPPENINGS

A number of people from his district and Lethbridge district, and also from adjacent school districts, are attending the TH clinic held in Pincher Creek from the 14 to 19 of this month.

The Ladies Aid are making arrangements to have their church strengthened, also extensive repairing on a house here which they own and rent.

Mother's Day service was held here on Sunday morning last with Rev. Mr. W. H. Irwin in charge. Special selections were rendered in song by the Misses Audrey Kuryuk, June Price and May Long of Bellevue. At the closing of the service, each mother was presented with a lovely tulip, a gift from the minister.

Owing to heavy showers of rain, seeding was held up here the early part of the week.

Mr. and Mrs. Harold Cook, of Lethbridge, are on a holiday visit at the parental home of Mr. and Mrs. W. S. Cook here.

Mrs. Mollie Milvain, of Vancouver, is spending a holiday visit at the home of her parents here, Mr. and Mrs. Harry Gunn.

The earth was blanketed with hail which fell over this district at eleven o'clock on Wednesday morning.

Friends here will be glad to learn that George Porte, now of Pincher Creek, has been an inmate in hospital in Calgary for a few weeks following an operation, is much improved in health and will be coming home this week.

Mr. and Mrs. G. A. Neumann and small son Kennedy of Twin Butte and T. P. Neumann of Pincher Creek were Sunday visitors of Mr. and Mrs. A. Murphy.

Special Fares for the Victoria Day week end on Canadian Pacific Railway lines are announced by H. Cronk, agent at Blairmore. The low fares will be available from Friday, May 23rd, to 2 p.m. Sunday, May 25th and will be good to return leaving destination up to midnight of Monday, May 26th. On branch lines where there is no train service on May 26th, tickets will be good to return on May 27th.

The low rate of single fare and one third for the round trip will be good between all stations in Canada and in all classes of accommodation.

SUBSCRIBE TODAY!

## WALTER HOWE PASSES

The death occurred on May 9, 1947, at St. Joseph's hospital, Victoria, BC, of Walter J. F. Howe, eldest son of Mrs. R. Howe, of Blairmore.

Walter returned to Canada last year from Washington, D.C., where he had resided for the past twenty-seven years and after a brief visit here took up residence in Victoria hoping that the climate there would improve his state of health, which was very poor. However soon after arriving in Victoria he was obliged to enter hospital where he passed away on Friday last.

Born in Suffolk, England on April 11, 1891, he came to Canada as a young lad in March, 1907, and after working at Pincher Creek for a short time he moved to Blairmore where the parents and family had settled since coming from England in 1910. Walter was one of the first to enlist from Blairmore in the first Great War, joining the 10th Battalion and saw active service with that noted battalion under Col. Boyle until he was wounded May 15, 1916. He was in the first gas attack on Canadians at St. Julian on April 22, 1916 and was later sent to the Royal Infirmary in Edinburgh, Scotland, being paralysed from head to foot. He was finally invalided home in 1918. He was a member of the Canadian Legion BESL, branch No. 7 at Blairmore. He leaves to mourn his loss, his wife, Mrs. Walter C. and one daughter Alice, all of Washington, D.C., at present in Victoria; his mother, Mrs. R. Howe, Blairmore; three sisters, Mrs. J. B. Harmer, Mrs. A. C. Deacon both of Blairmore and Mrs. T. T. Murphy in Victoria; three brothers, D. A. Howe, Victoria; J. W. Howe, Calgary, and C. Howe, Honey moon Bay, BC.

Funeral was held from Hayward's BC Funeral Chapel on Tuesday, May 13, at 1:30 p.m. Rev. J. L. W. McLean officiating.

Palbearers were members of Canadian Legion who were in charge of arrangements and included members of the Loyal Order of Moose of which deceased had been a member for past thirty years.

Interment took place in Royal Oak Burial Park, Victoria.

MISS BOORMAN OBTAINS DEGREE

One of this year's graduates of the University of Alberta is Miss Mary Margaret Boorman, of Blairmore, who obtained the degree of B.Sc. in Nursing.

Miss Boorman is the daughter of Mr. and Mrs. J. Boorman, Mr. Boorman being the manager of the local Alberta Government Telephone exchange.

Miss Boorman took her early education in Didsbury before her parents moved to Blairmore. While attending the university she was senior class representative to the Student Council. She is the youngest daughter of Mr. and Mrs. Boorman and expects to obtain a position as a district nurse in Alberta and will specialize in public health.

## BOTTLE MOUSE TRAP

A devastating plague of mice in the Males district of Victoria, Australia, has resuscitated an old idea of a mouse trap, with an Australian angle to it. A piece of cheese for bait is plugged into the mouth of a bearbottle which is fixed horizontally above a kerosene can filled with water. Leading to the trap is a board, up which the mouse climbs and runs along the bottle to the well-greased neck of the bottle. The mouse falls into the water and is drowned. One farmer, says the Australian News, claims to have caught 2,400 mice in this way in 12 hours.

## Trends In Immigration

**INTEREST IN IMMIGRATION** has increased greatly since the war, not only in Canada, but in many countries. Six years of warfare left the necessity of rebuilding many thousands of houses, factories and stores in those areas which had been laid waste. Elsewhere, because of the almost complete diversion of manpower and materials to meet the requirements of the war, there was built up an accumulated need for the many commodities which were not produced during the war years. A third condition, putting added demands on production, is the tendency towards the raising of general living standards and a consequent increased demand for many products. All this has created unprecedented needs for skilled workers, and has had a marked effect upon the post-war attitude toward immigration.

### Labor Office Issues Report

The International Labor Office recently issued a very interesting report on immigration, which states that there are no permanent trends in this matter. The conclusion is drawn that we are unlikely to again see any great immigration movements such as took place between Europe and this continent early in the present century. It appears that while many countries are now interested in receiving immigrants they are interested in taking in only small and selected groups, usually with preference for skilled workers who fill some specific need in the country which they enter. This is described by the International Labor Office as a short-term solution which is being used by many governments while more permanent policies are being formulated.

### Policy Changes Are Predicted

It is pointed out by the writer of the report, that although present policies will in all probability be revised there will be no vast movements of population such as have taken place in the past, since there are no longer many great unoccupied areas to be settled. Mexico and South America now have a preference for skilled workers, and in South America there is a marked preference for skilled technicians. Australia and New Zealand have at present restricted immigration regulations and South Africa, although she has room for many new citizens, will not admit unskilled workers. The last area from which immigrants may be sought in any number appears to be Italy, and Britain, Belgium, France and Sweden are securing workers from there to help with the gigantic post-war tasks. From all this it is clear that policies on immigration have changed in recent years and that the present tendency is toward the movement of small and selected groups rather than the mass migration of earlier times.

THE PICK OF PIPE TOBACCO

### BRITISH LAW IS SURE PROTECTION

The London Daily Mirror says: In this free country a policeman cannot arrest a man or woman unless he gives the true reason for it. He is not entitled to keep the reason to himself. Nor can he give a reason which is not a correct one. The policeman who does this may be liable for false imprisonment. This ruling was given on behalf of the House of Lords recently by Viscount Simon. Lord Simon said that in this country a person was entitled to his freedom and was only required to submit to restraint if he knew in substance, the reason.

#### ONE ADVANTAGE

Advantage of the British ways is sometimes demonstrated in modern life. Thus, the handsome cab of Victorian times located the driver where it was much harder for the fare to hit him on the head prior to a robbery.

#### RELIEVE

**ACHES & PAINS**

#### Beef Upside-Down Pie

1½ cups flour  
3 cups Magic Baking Powder  
1 cup milk  
1 cup sliced onion  
1 cup celery salt  
½ cup white pepper  
5 lbs. shortening

Sift together flour, baking powder, ½ teaspoon celery salt, white pepper and shortening. Add milk and stir until blended. Add onions and mix well. Place in 9" frying pan, and cook onions until soft. Add tomato sauce, remaining ½ teaspoon celery salt, white pepper and baking powder mixture on top of meat mixture. Cover with foil and bake in hot oven at 425° F. for about 20 minutes. Cut out upside down on large plate—serve.

TEMPTING HIS FEATHERED FRIEND — Joseph "Brownie" Bond, eight-year-old Quaker city schoolboy, of Philadelphia, is shown holding a cracker in his mouth, invitingly tempting his pet pigeon, "Fee-Gee," to itself to a nibble. "Fee-Gee" was awarded first prize as the "friendliest pet" at the German town boys' club pet show.

### FUNNY And OTHERWISE

Old Rastus settled himself in his chair and addressed his wife: "Yes, sah, Gal, did boss come out wages here in two again. Some ob de boys is comin' in with a 'fiddle-bout' it. I figure it's half of sumpin' is better'n all of nullin'!"

They were enteraining the vicar and the gurrls repre-  
sented to him to be a bit of a  
house: "Don't you ever say pray-  
ers before your meals, my child?"

"Oh, no," said the child. "Dad  
says our cook's pretty reliable."

"Portah, portah. Come back at  
once!" cried an English woman  
from a train window to a Scots  
porter in that aggravated accent  
that always seems to put a Scots-  
man's back up.

"What d'ye want?" asked the  
porter.

"Portah, I've lost my luggage."

"Then," he said, turning round and strrolling away, "what was  
you wanting a porter for?"

"May I print a kiss on your  
cheek?" he asked.

She nodded her sweet permis-  
sion.

Then they went to press—

And I rather guess—

They printed a large edition.

Teacher: "Who was the greatest  
of all inventors?"

Student: "Edison."

Teacher: "Why?"

Student: "He invented the phonograph so people would sit up all  
night and use his electric lights."

A golfing novice had driven his  
ball along the fairway, but  
unfortunately it disappeared down  
a deep hole.

"What club will you take  
now?" asked his caddie, with a  
sly smile.

The novice sighed wearily as  
he scratched his head in doubt.  
Then at last he asked hopefully:  
"Have you got one shaped like a  
ferret?"

Two old settlers, confirmed back-  
losers, sat in the backwoods. The  
conversation drifted from politics to cooking.

"I got one of them there cookery  
books once, but I never could do  
anything with it," said one.

"You've hit it. Every one of them  
recipes began in the same way—  
Take a clean dish. And that set-  
tled me."

Five-year-old William had been  
taught that Santa Claus is not a day  
for play. One Sunday morning his  
mother found him sailing his  
toy boat in the bathtub.

"William," she said, "don't you  
know it is wicked to sail boats  
on Sundays?"

"I don't feel excited Mother," he  
replied. "This isn't a pleasure  
trip. This is a missionary boat  
going to Africa."

She was pretty and ambitious  
and had studied the matrimonial  
problem to a nicely.

"I shall wed  
eventually," she said, "but the only  
kind of masculine nuisance that  
will suit me must be tall and dark,  
with classical features. He must be  
brave, yet gentle. He must be  
strong—a lion among men, but a  
gentle lion."

That evening a bow-legged, lath-  
framed, chinless youth, wearing  
flannel bags and smoking a cigar-  
rette that smelt worse than a burning  
boot, rattled out the back door,  
and the girl knocked four tumblers  
and a cut-glass dish off the side-  
board in her haste to let him in.

## Alberta Pilot Tests British Jet Planes

### HUCCLECOTE, Glouces., England

Successful test flying is "just a case of watching your P's and Q's—in other words, learning to walk before running," says Canadian W. A. Waterton, one of Britain's outstanding test pilots.

"The cause of most accidents in test flying is that people are too impatient," said Waterton in an interview at the Moreton Vallance Air-drome, one of the fields over which he puts his aircraft through their paces for the Gloster Aircraft Company.

5 ft. tall, broad-shouldered and unmarried, Waterton at 30 knows what it is to travel almost as fast as sound. Last September, at Tangmere, Sussex, he travelled at 614 miles an hour when a three-man R.A.F. speed team aimed at a world record. It is held by the team of M. Donaldson, who reached 616 miles.

Last January, however, Waterton whipped a jet-propelled plane from Paris to London—208 miles—at 618.4 miles an hour.

Born in Edmonton, Waterton was taken to Germany at a very early age, two years old. After attending local schools he completed his education at Royal Military College, Kingston, where he was welterweight boxing champion. He graduated in 1937, and came to England to join the R.A.F. Two years later when he was unable to win a commission in the Canadian Army.

His service in the R.A.F. is commemorated by a four-inch long sandy mustache that takes a slight curve from the bridge of his nose to the tip of his upper lip, ending in a finger just under a cheekbone. He became a member of the 242 Fighter Squadron, largely comprised of Canadians, covered the Dunkirk evacuation and fought through the Battle of Britain. When he was promoted to flying officer in October, 1946, he held the rank of squadron-leader. But a week later he was back in the air, testing for Gloster.

Although he says "there's nothing in Canada for me in my line," Waterton is a Canadian who served in the Dominion during the war. He was stationed at Penhold, Alta., and Swift Current, Sask., before returning to England to join the R.A.F. suborbital plane unit testing Allied and German planes.

The R.A.F. has offered him a permanent commission but right now he's interested in developing jet aircraft.

### STUDENTS SHOOT IT OUT WITH GUNS

HAVANA, Cuba.—Opposing groups of secondary school students, fighting for control of their student's association, shot it out with guns on the corner of Galan and San Lazaro street recently.

The gunplay reported sounded in the middle of a nearby grocery store.

Three students were said to have been arrested.

### GEMS OF THOUGHT

#### SILENCE: ITS VIRTUE

Silence is the element in which great beauty finds its strength together; that at length they may emerge, full-formed and majestic, into the delights of life, which they are henceforth to rule.—Carlyle.

He knows not how to speak who cannot be silent; still less how to act with vigor and decision. Who hastens to the end is silent; loudness is impotence.—Lavater.

There is an eloquent silence: it serves to indicate, to apprise, sometimes to condemn. There is a mocking silence; there is a reverent silence.—Le Rochefoucauld.

No reproach is so potent as the silent lesson of a good example.—Mary Baker Eddy.

Silence is the safest respondent for all the contradiction that arises from impertinence, vulgarity, or envy.

Silence never shows itself to be great an advantage as when it is made the reply to calumny and defiance.—Addison.

The moment you feel the first twinges of disease, stop taking Kruschen. Thousands of people suffering from rheumatic pains have written to tell us how Kruschen relieved them. "Why not let Kruschen help you?" By taking Kruschen regularly each morning the system is benefited by the mineral salts in this fine old remedy. It is organically related to the body and helps to eliminate that leads to an improvement in health and cure of rheumatic pains. Follow the Kruschen directions to directions on each bottle for the next few weeks. All Druggists: 25¢ and 50¢.

## MAJ.-GEN. LARSEN TO LEAD EXPEDITION

LONDON.—Maj.-Gen. Hjalmar H. Larsen, who will lead the forthcoming British Antarctic expedition, has been sent to the project in the Antarctic, described as a combined operation in the spirit of the United Nations.

The expedition is scheduled to start late next month and will cost about £100,000, or \$400,000.

Larsen, explorer and wartime chief of the Norwegian air force, is visiting Britain to discuss plans for the expedition with British scientists. He expects to be in the field by January, when the 5,000,000 square miles of Antarctic territories will be "a vast, fertile and habitable continent."

Based on this theory on climatic changes believed to be taking place at the South Pole.

The expedition will consist of 160 members, most of them scientists from the three countries backing it.

Larsen will stay in Queen Maud Land from November, 1948, to January, 1949, and a group of 12 scientists will stay another nine months to study meteorological conditions.

### Landlady Uses Silent Collector

WALL STREET Journal tells us there is a lady operating a boarding house down in Alabama who has a simple, silent, but most effective method of collecting money from delinquent boarders.

A new arrival at this lady's establishment noticed at supper that one of the boarders had one fork too many beside his plate, and seemed to be acutely embarrassed over the circumstance.

"Oh, what's he so disturbed over the extra fork?" the new boarder whispered to the gentleman seated beside him.

"Oh, that's how the landlady collects past due board bills," was the laughing explanation. "When she puts it extra implement beside a plate it simply means 'fork over'."

## WORLD HAPPENINGS BRIEFLY TOLD

Air mail between Sweden and Germany has been permitted by the Allied occupation authorities.

In England legal proceedings are to be taken against people feeding to livestock potatoes fit for human food.

Alberta's farm population has declined 14 per cent. in the last five years due, it is said, to mechanization and larger farm units.

The British military mission in Egypt will be completely withdrawn by Dec. 31 in accordance with Egypt's decision to do away with its status.

Mrs. Franklin D. Roosevelt's driving licence was reinstated after a 3½-month suspension resulting from her part in an automobile accident.

The Moscow radio recently broadcast in the children's hour a Georgian song, with words written by Generalissimo Stalin when he was 16. The song was in walla time.

Britain lost £200,000,000 (\$900,000,000) worth of exports as a result of the recent fuel crisis. Sir Stafford Crisp, president of the board of trade, disclosed.

The Queen and Queen each sent donations of £200 (\$400) and the Duke of Gloucester and Queen Mary sent donations of £100 (\$200) to aid flood victims at Windsor, England.

At Massachusetts General Hospital in Boston, 11 nurses work on a full-time basis in the administration of penicillin and about \$800,000 worth of the "miracle drug" is used annually at the institution.

### BRITAIN STARTS RECRUITING FOR 200,000 RESERVES

LONDON. — A British recruiting drive to enrol 200,000 volunteers in the Territorial Army was in progress.

War Secretary Frederick Bellingen said a call for 200,000 women volunteers for the Auxiliary Territorial Service to serve in anti-aircraft and field units.

Bellingen hopes to enrol 200,000 men in 18 months. He said the Territorial Army will have six infantry, one airborne and two armoured divisions and will handle anti-aircraft defences.

### MANAGES ALL RIGHT

Open Sound-Sun-Times revives the old adage that "man cannot live by bread alone". And yet, comment the Ottawa Citizen, considering the invisible layers of butter on it, seems to be doing all right.

**MAY REVOLUTIONIZE MILLING** — W. W. Niven, of the Midwest Research Institute, Kansas City, Mo., is operating an experimental plant which mills wheat without rollers and by use of compressed air. Institute heads say that this method may revolutionize the milling industry. Grain in cylinder A is fed by drive B into chamber C with a stream of compressed air from D. Air fills individual cells within grain, which shoots through nozzle within pipe at E and explodes. Shattered grain streams past valve under Niven's hand and into conical separator E, where it is removed from air stream, then emerges at F. Institute heads say it is possible to completely separate all component parts of grain: germ, husk, bran and flour, by this process.

### MILITARY POLICE STILL ON THE LOOKOUT FOR ARMY DESERTERS

OTTAWA. — Military police in Canada and allied military police all over Europe are still on the look-out for 567 Canadian deserters nearly two years after the end of the war with Germany.

Many of them have been "on the loose" in the United Kingdom and Canada's overseas army, although the bulk are missing in Canada. A few are still at large in Europe and are listed as being in countries where Canadians served during the war.

Some 1,000 classified missing and deserters are listed as missing from approximately 14,000 men who were conscripted into the services and then deserted before being sent overseas. They are listed on official army records simply as "deserted not to be accounted for."

The difference in classification is that in the case of deserters, sailors and airmen listed as deserters, certain rehabilitation benefits are still available. In the case of the men now "on the loose" and "deserted", no discharge credits have been or will be available. In other words, the NRMA men who deserted before being shipped overseas were never officially part of the armed forces, and their names have been wiped from the slate of those who did serve.

Army personnel at the parade of the 10th Canadian Division, in Germany, listed as deserters with 465 unaccounted for. The biggest proportion, 325 soldiers, are listed as having deserted in Canada, with the remainder, 140, listed as missing in Europe.

Seventy-five members of the navy

are missing and listed as deserters in Canada with only five having disappeared overseas. In the case of the air force, there are 20 members missing.

The results of the survey, it was revealed, are not complete, because many were not yet 100 per cent. pasteurized.

From the results of the survey, it was learned that 43 per cent. of Canadians are drinking raw milk despite the fact that raw milk can be dangerous — despite the fact that milk-borne diseases have caused much needless, killing and crippling illness.

Pasteurized milk is the only safe milk.

### Hitler Criticized OF HAVING VERY TRUE

The criticism of Hitler by Dr. Hugo Eckener, famous German designer, builder and flier of airships, is the gem of beauty. The elderly scientist remarked:

"When Hitler came to power he was 90 per cent. fool and 10 per cent. criminal, but when he ended he was 90 per cent. criminal and 10 per cent. fool."

That describes a man who tried to set up one people as a master race and who set out to destroy all the rest.

A cord of wood contains 128 cubic feet. 2724

## Health League of Canada presents TOPICS of VITAL INTEREST

### REVEALS MOST MILK SUPPLIES UNPASTEURIZED

In view of the scientific fact that pasteurization makes milk fit for human consumption, it is an appalling revelation that 366 municipalities reporting to the League of Canada in its recent survey of eight provinces outside Ontario, only 13 per cent. were revealed to have compulsory pasteurization by-laws. Ontario was not included because it is the only province in the Dominion which has a province-wide law in force.

Saskatchewan headed the individual provinces in the matter of cities and towns reporting safe milk by-laws, 20 per cent. being in this category. Quebec was next with 15 per cent. reporting compulsory pasteurization by-laws.

Of the 366 reporting municipalities,

90, or approximately 25 per cent., reported their entire supply was unpasteurized. Sixteen revealed that while they had no compulsory by-laws, their supply was 90 per cent. pasteurized.

Forty-one municipalities, including 15 in Quebec and eight in Alberta, revealed that 90 per cent. or more of their milk supply was pasteurized.

From the results of the survey, it was learned that 43 per cent. of Canadians are drinking raw milk despite the fact that raw milk can be dangerous — despite the fact that milk-borne diseases have caused much needless, killing and crippling illness.

Pasteurized milk is the only safe milk.

## Delicious "SALADA" TEA BAGS Convenient

### Prospective Canoe Dash Forbidden

**DESCRIBED KITTEN**  
A boy at school, when asked to describe a kitten, said:

"A kitten is a little muddle of fur that rushes like mad at nothing whatever—and stops before it gets there."

By WILLIAM FERGUSON

### Canada Sharing In Loran Costs

MONTREAL. — Canada and three other countries signed an agreement to contribute to the cost of financing the Loran (long range navigation aid) station at VIK, Iceland, an important link in the chain of stations designed to ensure navigational safety for trans-Atlantic flights in the North Atlantic.

The United States signed a party to the arrangement with Iceland, which also was entered into by the United Kingdom, France and The Netherlands. Operation of the VIK station had been financed in the past by the United States and later by the Royal Air Force until a short time ago.

Under the agreement, Canada will bear nine per cent. of the approximately \$400,000 cost of financing the VIK station, with Iceland contributing five per cent. and the remainder allocated among the other signatories in agreed proportion based roughly on the use they make of the facilities.

### PLENTY OF WORK

The Ottawa Journal tells us the net income of Canadian farmers reached last year a record figure for all time — \$1,267,400,000. A very great deal of hard work went into that substantial achievement.

MANNERS FOR MODERNS

By Molissa

We were talking about the additional work that men—bless their hearts—cause in a household, and as a final filip to the conversation Jane said, "Yes, they're a bother, particularly at meal-time — but isn't life dull without them?"

One point that should have been brought out in this talk is that the woman who provides meals for her hungry men-folks is also the person who sets the tone for their manners. There's the matter of wearing coats in the house. Quite small boys can be trained to don a jacket when they come to the table, or if there are callers. Even when worn over a flannel shirt, a suit coat or sport coat brings an air of dignity to a dinner table, and the man or boy wearing one unconsciously has better manners.

It's sometimes hard to enforce this rule, especially in hot weather, and communities vary in its observance. But it can be done if Mother believes that it is correct and if her persistence is accompanied by a smile.

When coats are taken off in the house they should not be draped over the backs of chairs. Again, it's Mother who should quietly but firmly ask John and Bill and Uncle Hugh to hang their coats in the hall closet or fold them up and place them in an inconspicuous corner. Coats just don't fit into any decorating scheme, and a housekeeper is within her rights to

least that they be kept out of sight when not being worn.

Most of us have a few pet eating habits that we like to enjoy when we are at home, though we know that they might be considered idiosyncrasies. They are not strictly good manners, but they are.

It is important to teach children to distinguish between these occasional family and general messy habits, and nobody likes.

Cheese, ham, chicken legs and wings, come first to mind in thinking of home eating habits. In the interest of food economy (we say), these can be taken in hand at the family table if finger-bowls are provided (perhaps also when this is a guest; if the hostess does it). Eating baked potato skins is generally considered a "college boy habit," but actually it is correct to eat skins if the potato is cut into small bits and these are eaten skin and all.

Putting a piece of bread one's

a small piece of bread, please. Putting cream on cake or pie, and piling different kinds of fruit on one's breakfast cereal are home habits, or are they?

But there are some table manners that one should never indulge in even if one can't afford it. A whole piece of bread should never be buttered and then eaten. It should be broken into pieces and each piece buttered as it is eaten. A plate should never be pushed away from your place when you have finished eating. A spoon should not be left in a teacup. "Dunking" is not in good taste, though it is sometimes done in a spirit of fun when doughnuts are served with coffee. It's really not so much what you do as the way you do it.

TRAP SHOOTING

Putting a piece of bread one's

located at the base of Blairstmore ski trail. Be on hand boys. There will be a prize for top man.

Winner of previous match was Geo. Brown, with a score of 22-25, and nearest competitor was Morency with 12-25.

The o will be a system of handicapping in operation this week—this should make the sharpshooters really shoot.

NEW WINTER UNIFORM.

FOR SCOUTS

Canada's Boy Scouts are soon to have a winter uniform, specially designed to meet Canadian climate conditions. Fred Descois of Montreal, an expert, who developed winter clothing used by British and American armies, is a member of the Dominion Stores committee designing the new winter Scout uniform.

George W. Caxy, OBE, MC, MM, of Ottawa is the chairman.

IT'S A MENACE TO OUR FORESTS

Most people think of forest fires as causing a destruction of trees alone. Even that would be reason enough for all-out prevention. But forest fires result in far more devastation than ruined timber stands. They destroy wild life and farms, sawmills and homes. They leave the earth barren, unfit for tillage.

They expose the soil to erosion, allow spring floods, and summer dryness. All of us suffer when a forest fire strikes. All of us lose an irreplaceable portion of our heritage. Since any of us can cause fires, it is up to all of us to see that no one does! Resolve to keep the forests green. Be careful with fire yourself—see that your neighbor is careful.

New Booklet "Alberta's Forests"

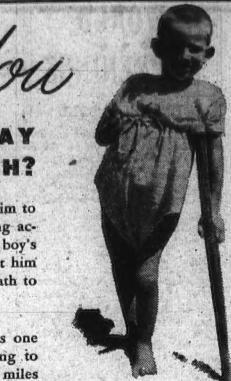

You'll enjoy reading the fascinating story of Alberta's forest lands. An attractive, fully-illustrated booklet is yours for the asking. Write to The Publicity and Promotion Office, Legislative Buildings, Edmonton, Alberta.

This liquid asphalt has many uses on the farm. Easy to apply, it coats your roofs and eavestroughs with a hard, tough, weather-proof surface that is fire-resistant. Cracks are filled, rust and leaks prevented. Imperial Roof Putty Flux has unusual filling, sealing and coating qualities that protect surfaces, prolong life, and save on repairs. Here are some of its many uses:

- Protects metal and felt roofs and eavestroughs.
- Waterproofs troughs and cisterns.
- Coats window frames.
- Preserves bases of granaries and granary sheds.
- Preserves fence posts and railings.
- Waterproofs cement foundations.

**READING VERSES TO CONDEMNED PET** — Reading verses from the Bible, 13-year-old Ronnie Shumsky sadly spends the last few hours with his pet dog "Ching-o-lee" after the animal had been condemned to death in Philadelphia. The chow will be killed because neighborhood residents state that he scares them constantly and has attacked many pet cats.

**BIRTHDAY** for 11-year-old King Feisal of Iraq was observed May 2. His oil-rich country is Arab stronghold in Middle East.

**KING'S SCOUTS PARADE AT WINDSOR CASTLE IN NATIONAL SERVICE** — More than 700 King's scouts, representing all sections of the British Isles, took part in a march past at Windsor Castle, when a national scout service was held in St. George's chapel. Here are some of the King's scouts and their banners parading to the chaperone for the afternoon ceremonies. Famed Windsor Castle is seen in the background.

**TEN-TON LOAD AND ALL, TRACTOR TRAILER OVERTURNS** — Carrying a 10-ton load, this big tractor-trailer overturned on the Queen Elizabeth Way, near Oakville, Ont., when its driver, William Hockridge, 26, of Hamilton, swerved to avoid a car. He suffered shock and abrasions about his ear.

**DOLLED UP TO MEET PRESIDENT** — Native girl is all dressed up to greet French President Auriol on his current tour of colonies. This miss is a citizen of French West Africa, where shoes are non persona grata.

**MINISTER REFUSED PERMIT TO TRAVEL OVER ALASKA HIGHWAY** — On his way to Alaska from Texas on a three-wheeled, one-cylinder scooter, D. A. Gregory, a minister, seen here, was refused a permit at Edmonton by the R.C.M.P. to travel over the Alaska highway. His dog and her three pups are passengers.

**ELECTION CAMPAIGN JAPANESE STYLE** — Campaigning for election to the Japanese House of Councillors, which replaces the traditional House of Peers, Nicidio Ogawara, a Buddhist priest, travelled the streets of Kyoto in an ox-drawn cart from which he addressed passersby.

**ROUND-THE-WORLD STEWARDESS** — Back home in Vancouver after a year's round-the-world tour as a stewardess on a freighter is Mary Peck. She saw the world's far places and saved \$1,180 in the process.

**CD.N.A. PRESIDENT** — New president of the Canadian Daily Newspapers association is H. G. Kimber, general manager of the *Globe and Mail*, who was elected at the annual meeting held in Toronto. 2724

**POTATO PLANTER** — James Novelli, who designed the potato planter, (left), operates a farm on Point Roberts, B.C. He designed the machine that would allow the sets to come down carefully, drop them into the furrow with the sprout undamaged. He wanted the sets spaced evenly, at the right depth and the fertilizer applied along the row, where it would not harm the sprout.

Upper left: Two operators sit at the seed trays on Jim Novelli's potato planter and place the sprouted tubers on the conveyor belt. Upper right: The conveyor belt moves forward to lay the sprouted tubers gently into the furrow.

Jim Novelli's potato planter showing the fertilizer bin up front and the seed trays at the rear. It takes three people to operate the planter.

**CANADIAN BEAGLES WIN INTERNATIONAL TRIALS** — Canadian beagles walked away with top honors at the Beagle Hound field trials held near Forest, Ont. Left to right are Mrs. W. J. Langmaid, Oshawa; Mrs. J. F. Reader, London, and Mrs. Frank Rushton, R.R. 1, Toronto, with their prize-winning charges. U.S. entries far outnumbered the line-up of Canadian dogs.

## OUR COMPLETE SHORT STORY

## THE HOME RUN

By GROVER HEIMAN

MARY's eyes had been serious as he turned to go into the clubhouse and he knew she was going to say something and he didn't want to listen, but he waited.

"I wish you would quit baseball and get into business with Father," she said and twisted her glove in her long fingers.

"We've talked about this before, darling. Hundreds of times. I thought it was a closed subject."

"I'm reopening it, Matt. I've worn it right night after night."

"We'll talk about it after the game," he said warily, and the old anger grew large in his chest. Why this again?

"All right, Matt." She kissed him lightly and the sweet taste of lipstick was on his arm as he watched her trim figure fade into the crowd, her shoulders straight and tall.

The game, the trouble, he was so stubborn. He threw his shoe against the locker door and Joe Crowder, the first baseman, stared, but didn't say anything. Matt jerked his tie off savagely and glowered at the wall.

They had married less than a year and it had been the same story since spring. Mary had been a member of the USO in Frisco, and she waited until he returned from the Pacific. Sure he had been lucky to get her. Or was it lucky to marry a girl with a cool million?

The cheer of the crowd that greeted the Red Legs when they poured out of the clubhouse was the fans that Mary was with, the fans Rich and poor, they had one consuming interest. Baseball was king in this square of grass circled by stands and myriads of faces. Mary would be in the box by first base and he glanced

LINDA E. PHINNAN'S COMPOUND

upward from his position at second and she waved. Matt smiled and then concentrated on batting practice.

He fielded a hot one and his rocket arm sent the ball into Joe Crowder's gaping glove at first. A fan yelled above the rumble of noise. "Atta boy, Matt," and Matt felt better. He was a star and he knew it, before the war. Now in mid-season he had regained his form and his bat was still a fearsome weapon. Life was rosy, but yet it wasn't. Mary wanted him to give up the game and become a vice-president in her father's bank, one of the largest on the Coast.

The game rocked along as a pitcher's duel and Rankin, the manager kept calling for runs, but the Greene hurler was at top form. Matt worked a fast double play in the top of the eighth to end Greene's rally and the crowd cheered with it. He glanced up to the box and his heart was heavy. Mary was sitting and there was no elation. Instead, she was looking at the wildly cheering fans as if they were insane.

The Red Legs needed this win to move into first place, but the outlook was not good. They had to win three more times and then came back to the dugout with black anger twisting their faces. Matt chose his bat and took his place at the plate.

Mary was still on his mind and he watched the first ball sail in and faintly heard the umpire call a strike. He was happy at first, but soon all she talked about was baseball. As if the game wasn't all right. Baseball was his passion, the element that sent his blood rushing in pulsing surges whenever he heard the crack of a bat or the thud of a ball in a glove. But—

The next pitch was a strike and Matt gave the ball of his cap a jerk and leaned closer. Slow burning anger boiled up then; he was eager for the next throw. He wanted to hit it with everything he had, wanted to hurt the people he had hurt. It came and he swung.

The solid crack of the bat told the fans and they rose as one to cheer Matt looked over his shoulder after touching second and grinned. The hysterical cheering was music to his ears. He noticed the two girls sitting next to Mary on the first base cheering.

The next pitch was a strike and Matt gave the ball of his cap a jerk and leaned closer. Slow burning anger boiled up then; he was eager for the next throw. He wanted to hit it with everything he had, wanted to hurt the people he had hurt. It came and he swung.

"Hi, Matt. Gee that was swell playing today."

Matt grinned and said, "Thanks!"

A touslehaired boy standing on Mary's side turned a freckled nose to the boy standing beside him. "Boy" murmured in awe. "Matt Johnson. That's what I want to be, Abe."

"Abe too," the boy named Abe piped and grinned at Mary. "Hi Mrs. Johnson—you are Mrs. Johnson?"

"Yes," Mary said softly. "I'm Mrs. Johnson."

They ate dinner at the Triumph Grill and conversation was sparse. Matt started thinking about Mary again. What there was a solution. He wasn't happy, not with Mary feeling this way. It looked like a choice—Mary, or baseball. He knew it would be Mary, but he loved baseball. The boy would drive him crazy. If only he had to wait.

Finally he got through the mob and Mary was breathing heavily as she straightened her hat. "I was afraid for a moment they were going to break up the game." However, she had a look of horror when a horde of young boys crowded around the car.

"That's Matt Johnson, all right. Boy did you see that hit?"

THIRTY-THREE POUNDS OF HIM—Biggest man arrested at Springfield, Ill., in many a day was George Ziller, (left), who tips scales at 538 pounds. He was released after questioning on bribery count.

GIANT PINE CUT—This giant red pine is a rarity in the Eastern Townships of Quebec, where it was cut. Having reached this great size in a swamp where it attracted no attention, the tree is shown here finally being saved by Mr. O. M. George, of South Stukely, and his daughter Joyce. The diameter of the tree was 4 ft. 6 in. and the branches produced three cords of oven wood.

"Hi, Matt. Gee that was swell playing today."

Matt grinned and said, "Thanks!"

A touslehaired boy standing on Mary's side turned a freckled nose to the boy standing beside him. "Boy" murmured in awe. "Matt Johnson. That's what I want to be, Abe."

"That's Matt Johnson, all right. Boy did you see that hit?"

They ate dinner at the Triumph Grill and conversation was sparse. Matt started thinking about Mary again. What there was a solution. He wasn't happy, not with Mary feeling this way. It looked like a choice—Mary, or baseball. He knew it would be Mary, but he loved baseball. The boy would drive him crazy. If only he had to wait.

Finally he got through the mob and Mary was breathing heavily as she straightened her hat. "I was afraid for a moment they were going to break up the game." However, she had a look of horror when a horde of young boys crowded around the car.

"That's Matt Johnson, all right. Boy did you see that hit?"

Yes, Pepsi-Cola gives more for your money! It's 8¢ and worth it! Here's why...

Yes, Pepsi-Cola now costs eight cents—and that price is your best guarantee of a drink that is truly BIGGER and BETTER!

You see, the price you pay when you pick a Pepsi today reflects our refusal to lower Pepsi-Cola standards of value, purity and flavour in the face of greatly increased costs of production.

In refusing to lower these standards, we rely upon the Canadian public to recognize the true economy of buying only the best—the best in quality, the best in quantity.

For over 12 years, Canadians have agreed that Pepsi-Cola is tops—tops for refreshment, for purity, for value. They have enjoyed Pepsi-Cola's matchless, "hits-the-spot" flavour; they have bought 12 full ounces for the price of six.

Now, in common with Canada's housewives, we face the problem of rising costs. The increased costs they meet in their kitchens we see in our plants—multiplied many times. Compare, for example, the price of sugar in 1939 with what we must all pay today!

In spite of these costs, we continue to offer you the best. Rather than lower our standards of quality or quantity, we ask you to pay eight cents for a drink which is still BIGGER and BETTER.

Yes, Pepsi-Cola now costs eight cents. It still enables you to enjoy the very best in flavour, the best in purity...still brings you a lot more for your money!

8¢ for 12 ounces  
- 3¢ per ounce  
7¢ for 6 ounces  
= 1¢ per ounce

"Pepsi-Cola" is the registered trademark in Canada of Pepsi-Cola Company of Canada Limited.

## PASS BALL LOOP

Blairmore, May 11—Attended by delegates from Hillcrest, Coleman, Nastal, Fernie and Blairmore, an organization meeting of the Crows' Nest Pass Baseball League was held at the Legion clubrooms in Blairmore, with Prudent C. Freeman in the chair.

It was decided to form a five-team league with the schedule opening on June 1. Fernie, who has not been in the league for several years, will open its schedule July 1 as a new playing diamond being constructed will not be ready for league play until that time.

Election of officers resulted in C. A. Freeman being re-elected president, S. D'Amico vice-president and A. T. Berg re-elected secretary-treasurer. The executive will be announced later.

SHARED HOMES NOT  
COVERED BY THE 10%  
RENTALS INCREASE

In answer to numerous enquiries, the Wartime Prices and Trade Board has emphasized that landlords of shared accommodation are not entitled to the 10% increase in rentals recently announced by the board.

Shared accommodation is defined as any room or rooms forming part of the residence of the landlord or his agent and of which the entrance had any other facility is used in common by the landlord or his agent and the occupants of the room or rooms.

The Board also pointed out that if a landlord of any house, apartment or flat is entitled to the 10% increase in rentals he must offer the tenant a two year lease in accordance with the provisions of the rentals orders before he may put the increase into effect.

## ON FRIDAY

"I understand your husband is musically inclined," commented the neighbor.

"Yes, but frankly, his best notes are produced on pay days," replied the budget-conscious wife.

Pass Garage or service stations open Sunday next till 7 p.m. and evenings next week till 10 p.m. are: Crows' Nest Pass Motors, Blairmore; White Rose Service Station, Coleman; Central Service Station, Bellvue; Hillcrest Garage, Hillcrest, and Lud's Garage Frank.

Dragnet Extended  
For E. B. Bottles

Posse Organize for Search in Alberta Rural Centres.

The dragnet for E. B. Bottles, alias "empty beer," widened today as search extended to Alberta's many towns and villages.

E. B. Bottles, commonly known as Empty Beer Bottles, became the subject of this intensive hunt following disappearance from eastern U.S. of the bottling and brewing industry. Citizens are co-operating in an all-out effort to see that this culprit is brought to justice and relieved to know that the demand for Brewery products can be met.

It is believed that "empty" may be lying low in basements, closets, garages, or other places about the home and for this reason, co-operation of housewives in aiding the search is particularly requested.

## CASH REWARD OFFERED

Housewives in cities, towns, and villages are urged to search their premises throughout in the event of apprehension.

Deliveries Limited

should be notified at once. They should then call the "Posse" into custody—pay 20 cents per dozen cash reward on the spot and provide escort to the nearest bottle depot.

Rural citizens who may come across "empty" can have him arrested, freight collect, to the nearest Delivered Limited depot and cash reward will be mailed to the nearest Delivered Limited Depot, also located at Cranbrook, Banff, Calgary, Edmonton, Blairmore, Medicine Hat, Drumheller and Lethbridge. McLennan is nearest depot for Peas River District.

WANTED—Horses for Fox Meat: 100 pounds. Contact JOE JACOB, Hillcrest, Alta. (May 9-10)

FOR SALE—One 6 room cement dwelling. Situated on the townsite of Passburg. For particulars apply to W. Kerr, Bellevue.

HOUSEWIFE who needs to earn. We have the opportunity you are looking for. Give phone Box E, Blairmore.

M. G. Smith, manager of the Royal Bank branch here, is the local representative for the Aid to Greece campaign. Donations will be received and acknowledged at the bank.

Quite a number of Blairmoreites took in the concert rendered by the University of Alberta mixed choir in Coleman Monday night. They report enjoying an exceptional program of singing.

Following Monday night's council meeting Blairmore will know whether fast time will be put into effect. Registering approval or disapproval is called for at the town office, a guide to council. Each day sees more communities adopting the new schedule.

Steve Bobrosky left Frank last Saturday for Vancouver, where he will undergo medical treatment.

Mr. Roy Gilbert, representative of National Drug Co., Regina, spent the week end with Mr. and Mrs. Frank a. Beebe.

## TOWN of BLAIRMORE

ARE YOU IN FAVOR OF THE TOWN OF BLAIRMORE

ADOPTING DAYLIGHT SAVING TIME? YES or NO?

Express YOUR wish at the town office on or before:

MAY 19, 1947.

The Town Council.

GROW MORE  
BARLEY

FARMERS! There is a FLOOR PRICE ON BARLEY OF 90 CENTS, basic No. 1 Feed, delivered FORT WILLIAM—PORT ARTHUR or VANCOUVER for all barley sold between August 1, 1947 and July 31, 1948. The price may be higher but it cannot go lower.

Canada is short of barley as feed for live stock. More barley is necessary for the maintenance of Canadian live stock and the production of urgently needed live stock products. Farmers can grow barley this year with the assurance that all barley sold until July 31, 1948 will bring not less than 90 cents a bushel, basic No. 1 Feed, at Fort William—Port Arthur or Vancouver.

Sow More Barley
